### 2-1. INSTALLATION GENERAL REGULATIONS AS RELATED TO HUNTING, FISHING, AND TRAPPING:

a. User Ethics: Individuals participating in outdoor activities on Fort McCoy play a large part in ensuring the successful management of fish and wildlife species and their unique habitat. All users are expected to respect each other by following a simple code of hunter ethics. Not following this basic code of ethics may result in loss of hunting, fishing, trapping, and firewood cutting privileges on Fort McCoy.

(1) Practice safe weapon use; know your target and what lies behind your target.

(2) Abide by all Fort McCoy and Wisconsin Department of Natural Resources (WDNR) Hunting Rules and Regulations.

(3) Respect all other users on Fort McCoy.

(4) Respect appropriate distances from other hunters; staying a minimum of 100 yards apart.

(5) First-come-first-serve should be respected, "MY SPOT" is not an option.

(6) Amount of years hunting Fort McCoy does not grant hunters "their own" spot.

(7) Marking spots does not mean it is "YOUR SPOT"; leaving flagging is a littering violation.

(8) While hunting, take ethical and safe shots.

(9) Respect hunters and non-hunters alike.

b. Transportation of Firearms/Bows: While on Federal property all firearms/bows must be unloaded and completely enclosed in a case designed to carry a firearm when in or on any vehicle, whether moving or stationary. Weapons are not allowed to be loaded in or on a vehicle at any time with the exception for WDNR disabled class A and B permit hunters while stationary. Bows and crossbows must be unstrung or enclosed within a case when in or on a vehicle. **Concealed carry is prohibited on Federal Property.**

c. Visitor Pass: All visitors entering the Cantonment Area of Fort McCoy must obtain a visitors pass at the Main Gate. To receive a visitors pass you will need to show your vehicle registration, proof of insurance and a

current driver's license in good standing. A background check will be performed by DES before a visitor pass is issued.

d. Requirements for sign-in/sign-out:

(1) **All hunters are required to sign-in and sign-out daily for all 2016 hunting seasons using iSportsman at (866) 277-1597, online at [www.mccoy.isportsman.net](http://www.mccoy.isportsman.net), or through the kiosk located at the Hunter Information Point (HIP)** (See para 2-3b for more information). At sign-out, hunters will be asked for their daily harvest results.

(2) The HIP, as identified on the hunting, fishing, and trapping maps (appendices C, D, E, F and G), and iSportsman website ([www.mccoy.isportsman.net](http://www.mccoy.isportsman.net)) will provide information to hunters as outlined in this regulation. The HIP is located south of Highway 21 at the intersection of South J Street and Highway 21 and will be open for **all** hunting seasons.

e. Activity Information Card: All individuals are required to display an information card on the passenger side of the windshield/dash with the following information: Permit holder's full name (if there is more than one permit holder per vehicle, the names of all permit holders will be noted), activity (e.g., archery, gun-deer, small-game, turkey, scouting, berry picking, bird watching, etc.), personal cell phone number and two emergency contact phone numbers for each permit holder in the vehicle.

(1) UXOs are often referred to as duds, bombs, munitions, ordnance, ammo, dummy rounds, or by other terms. Regardless of what they are called, they should be considered extremely dangerous. They were designed to explode and still have the capability to do so. Never touch, move, or disturb munitions. Even Civil War cannon balls and souvenir munitions that may have been handled for years can potentially detonate at any time.

(2) UXOs come in many shapes and sizes and may be visible on the surface or be buried. It can be exposed by erosion or fires, and may look new or old. UXOs may also be found alone or in groups; and can be whole or in parts.

(3) Anyone encountering or believing they may have encountered UXOs should consider it extremely dangerous. The proper response to avoid injury to themselves and others is to follow the **3Rs** of explosives safety:

(a) **Recognize** - Recognizing when you may have encountered UXO is key to reducing the risk of injury or death. If you encounter or suspect you may have encountered UXO, consider it extremely dangerous.

Remember, UXO is sometimes hard to identify.

(b) **Retreat** - If you encounter or suspect you may have encountered UXO, do not touch, move or disturb it, but immediately and carefully leave the area following the same path on which you entered. If you can, mark the general area, not the UXO, in some manner (e.g., with a hat, piece of cloth, or by tying something to a tree branch).

(c) **Report** - Notify Fort McCoy Police Department at (608) 388-2000 of what you saw, where you saw it, and the type of marking, if you were able to mark the area. These actions will protect you and others who may encounter the same area.

(4) Additional UXO safety information and a photo gallery of various types of UXO are available from the Department of Defense internet site at <http://www.denix.osd.mil/uxo/SafetyTopics/UXO.cfm>

Baiting is allowed while trapping or conducting official government studies. The planting of food plots, without proper authorization, is strictly prohibited.

(1) Bait is defined as any feed material that is placed or used to attract wild animals, including salt, minerals, fruit/vegetable, grains, liquids, etc.
